AMS SPECTRA™ CONCEALABLE PROSTHESIS

The AMS Spectra prosthesis combines the best features of our popular malleable line. Simplified sizing, ease of placement, superior concealment and rigidity. An unmatched combination of technologies focused on both surgeon ease and patient satisfaction.¹,²

FEATURES¹

- Optimal balance between rigidity and concealment
- Unique spring and cable design
- Diameter: 9.5 mm, 12 mm and 14 mm
- Length: 12 cm, 16 cm and 20 cm
- Snap-fit Rear Tip Extenders (RTEs): add length to the proximal cylinder end of 0.5 to 7.5 cm (excluding 7.0 cm) in 0.5 cm increments

BENEFITS²

- High patient satisfaction³
- Simple to implant and easy for patients to use
- Full ability to position with minimal spring back
- Multiple configurations for a wide range of patient sizes
- Easy cylinder to RTE attachment, no hex wrench required
- Snap-fit RTEs optimize fit and provide a secure, rigid connection

Simple, Spontaneous, Superior
### Superior Concealment

**Dimensions**
- Cylinder Diameter x Cylinder Length: Product Number
  - 9.5 mm x 12 cm: 720054-01
  - 9.5 mm x 16 cm: 720054-02
  - 9.5 mm x 20 cm: 720054-03
  - 12 mm x 12 cm: 720074-01
  - 12 mm x 16 cm: 720074-02
  - 12 mm x 20 cm: 720074-03
  - 14 mm x 12 cm: 720056-01
  - 14 mm x 16 cm: 720056-02
  - 14 mm x 20 cm: 720056-03

**Snap-fit RTEs** are used with Spectra cylinders.

**RTEs**
- Diameter x Length(s): Product Number
  - 9.5 mm: 0.5, 1, 1.5, 2, 3 cm (kit): 720170-01
  - 9.5 mm: 4, 5, 6 cm (kit): 720171-01
  - 12 mm & 14 mm: 0.5 cm: 72404320
  - 12 mm & 14 mm: 1 cm: 72404321
  - 12 mm & 14 mm: 2 cm: 72404322
  - 12 mm & 14 mm: 3 cm: 72404323
  - 12 mm & 14 mm: 4 cm: 72404324
  - 12 mm & 14 mm: 5 cm: 72404325
  - 12 mm & 14 mm: 6 cm: 72404326
  - 12 mm & 14 mm: 1.5 cm stackable: 72404330

The 1.5 cm RTE is the only RTE that can be used in combination with another Snap-fit RTE.

**Sizers** (Non-sterile)
- Diameter: Product Number
  - 9.5 mm and 12 mm diameters: 720153-01

The risks and benefits of implanting this device in patients with documented sensitivity to silicone should be carefully considered.

---

**Summary of Warnings and Contraindications:** Implantation of the device may result in the loss of latent natural or spontaneous erections as well as make other interventional treatment options difficult and may result in penile shortening, curvature or scarring. The implantation of this device is contraindicated in patients who have active urogenital infections or active skin infections in the region of surgery. This device contains solid silicone elastomer. The risks and benefits of implanting this device in patients with documented sensitivity to silicone should be carefully considered.
